ADVANTAGES OF LCD OVER PLASMA

LESS SCREEN GLARE

LOW HEAT GENERATION

LONGER DISPLAY LIFE

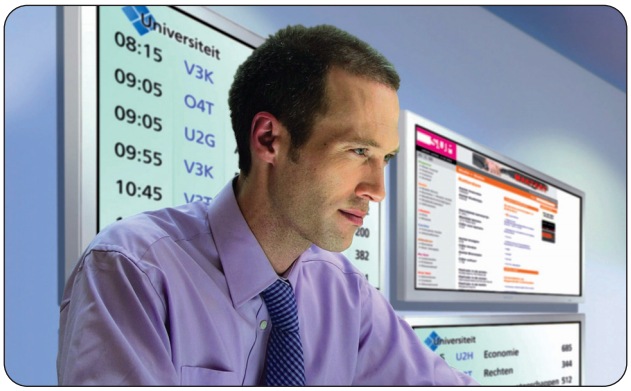
SUPER VIEWING ANGLE

PURPOSE BUILT DISPLAY SCREENS

LOOKS BETTER IN BRIGHTLY LIT ROOMS

LIGHTER WEIGHT

A+K PADS STANDALONE



This simple yet powerful solution enables cost-effective presentation of any multimedia content on a single display.

PADS Designer application offers an easy, intuitive design process using a graphical WYSIWYG interface, with all the same design functionality as A+K PADS Professional.

The thumbnail feature lets you see all pages of your presentation at a glance for easy moves and deletes.

PADS Viewer application displays your designed presentation and also supports interactive, touch-screen kiosk presentations.

Unequalled database connectivity enables any live data to be incorporated into presentations.

Fully scalable by upgrade to A+K PADS Professional.

A+K PADS PROFESSIONAL

Considered the world's most flexible and technically advanced digital signage system, A+K PADS Professional is nevertheless easy to install and requires only basic PC skills to create multi-monitor presentations.

PADS Designer tool supports all industry-standard picture and video file formats and lets you add sound, TV, scrolling text, tables, web pages and many more elements.

PADS Manager application gives you the freedom to schedule content for a single display or a whole group, for one-time presentation or to be repeated at any interval, using drag-and-drop schedule editing.

PADS Server automatically collects and distributes your scheduled presentations and content files, via any type of network infrastructure with full support for wireless communication.

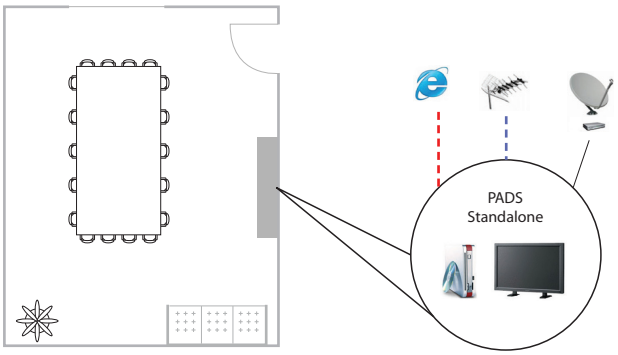
PADS Viewer software displays presentations on any type of display, automatically caching files to enable offline working.

UNIQUE SOLUTIONS ∞ INFINITE POSSIBILITIES

Delivering relevant information to Mitsubishi display monitors, data/video projectors, information pillars or even as SMS messages is easy with A+K PADS.

A+K PADS (Digital Signage) software and hardware is easily installed, simple to use and highly versatile. You can incorporate any type of multimedia content, including scrolling text, video, live news feeds or real-time data, into a visually appealing display on one or more screens.

A+K PADS STANDALONE - TYPICAL SETUP

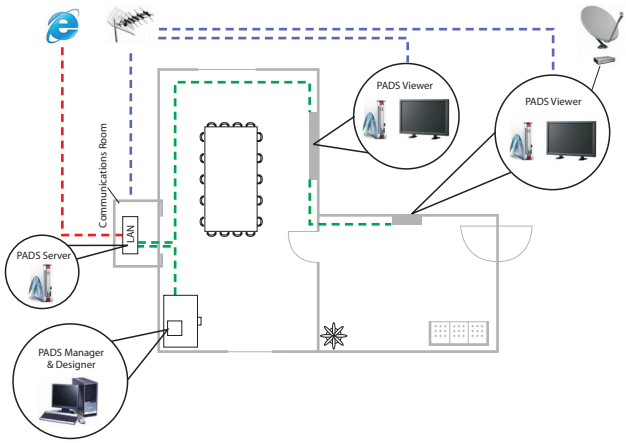


This schematic shows a typical setup for A+K PADS Standalone. The Standalone setup provides a simple and cost-effective but very powerful solution for small digital signage installations.

PADS Standalone Designer
A powerful design tool that allows you to design visually appealing PADS presentations.

PADS Standalone Viewer
The application to play PADS presentations.

A+K PADS PROFESSIONAL - TYPICAL SETUP



The A+K PADS Professional setup consists of a number of components that together cover all aspects of a complete digital signage solution.

PADS Designer
A powerful design tool that allows you to create visually appealing presentations.

PADS Manager
The end-user application for scheduling the presentation you have designed.

PADS Server
The central server software that collects and distributes presentations, content and real-time data.

PADS Viewer
The application that plays the scheduled presentations on a display device.

ABOUT MITSUBISHI LCD MONITORS

The LDT range of panels provide an ideal solution within retail, corporate, education and public information spaces. Mitsubishi LCD panels come in 32" and 42" that have a native 1366 x 768 (WXGA) resolution and 46" which features a 1920 x 1080 Full HD native resolution.

Mitsubishi's LCD range all benefit from fast response times and high brightness, helping to ensure crystal clear images are reproduced.

Built in features include AV connectivity to maximise integration flexibility, scheduling control to operate the on/off mode efficiently as well as a screen saver for long term operation.
